Products and Services for Web-Based Surveys

Short Form: Assesses the nature, scope, and consequences of alcohol and other drug use on college campuses. (23 questions - takes approximately 15-20 minutes to complete)

Long Form: Contains all the features of the Short Form, but also assesses the students' attitudes, perceptions, and opinions about alcohol and drugs (39 questions - takes approximately 20-30 minutes to complete)

Community College Form: Contains all the features of the Long Form, but also has been redesigned specifically for community college campuses.

Campus Norms: Assesses students' use of alcohol and drugs, and extensive perceptions of alcohol and drug use on campus by friends, peers, and other student groups on campus.

Faculty and Staff: Assesses staff perceptions of alcohol and drug use on campuses.

High School Edition: Contains all the features of the Long Form, but has been redesigned specifically for high schools.

Customization: We offer competitive pricing for customizes surveys. Surveys can be modified for specific content or language or you can have a customized survey created for your school. Our full range of options ensures there is an option for almost any budget.

Front Page (Privacy Statement): A customized page can be added to the beginning of the web-based survey (which may consist of the informed consent information or any institution-specific message).

Back Page (Completion Page/End of Survey Page): A customized page can be added to the end of the web-based survey. This could include an incentive for the students to participate such as a coupon, an email link for the students to enter a raffle for a prize, or any institution-specific message.

5 digit vs. 9 digit: With the 5 digit login code, all students who are invites to participate will use the same login code that will identify them as students of your school only. With the 9 digit login code, the first 5 digits will identity the school and the last 4 digits will be unique to each student and, therefore, allows for tracking responders and non-responders.

Participating Steps

1. Obtain IRB/Human Subjects approval and submit approval documentation to the Core Institute.
2. Submit order form and payment.
3. Send any additional information (i.e., front page, back page, additional questions, etc.) to the Core Institute. Once this is received, a researcher will begin setting up your survey. We will also need the administration dates (please allow at least 2 weeks for setup).
4. Once the Core Institute has your approval, your survey will go "live" and your students can be emailed the invitation to participate (either by you or the Core Institute if you ordered the emailing service).
5. After the survey is closed, you will need to fill out and return the Demographic Survey to the Core Institute.
6. Reports will be sent and any additional services will be billed. Turnaround time to receive reports is 4-6 weeks.
